FLOETROL

- Enriches the performance of latex/acrylic paints.
 - Improves flow and cover qualities
 - Extends wet-edge time to avoid lapping and reduces brush drag when painting under hot and dry or cool and damp conditions
- Reduces wear and tear on spray equipment.

PENETROL

- For use with oil-based (alkyd) paints or varnish
- Improves flow and maintains paint quality
- Makes an ideal matte finish for interior rustic woods, provides protection against rust on metals and restores luster to faded fiberglass

M-1 ADVANCED MILDEWCIDE

M-1 Advanced Mildewcide provides the broad-spectrum fungicidal capability other additives cannot, without hurting the environment. Sunnyside -Advanced Mildewcide

Treats 5 Gallons

1 Pump - Treats 52 Gallons

PAINT SCENTSATIONS

- Liquid additive mixed with paint at a ratio of one ounce per gallon
- Instantly makes freshly painted surfaces become an effective air freshener and odor combatant
- Available in 1oz packets and 10 oz bottles
